Report of the Program:

Objectives:

- ⇒ To cultivate trees by the students and to make an awareness to protect trees.
- ⇒ To make an understanding how can trees play a crucial role in improving air and water quality and the whole college environment fresh and green.

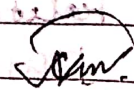

Participants of the Program:

Teachers from the department of education and more than 40 students were engaged.

Description of the Program:

A plantation program was organised by department of education with the help of the students. The 6th semester students of 2024-25 donated tree plants in this program. Respected Assistant professors and the students of department of education were participated. Mr. Abani Saharia and Dr. Neupendra Deka were planting a sapling the students were also helped them in preparing the planting site and providing proper care for their initial growth.

After the plantation program, Hiranmoyee Medhi, the HOD, delivered a short speech on the importance of plantation for the greater society. The program was ended by offering a vote of thanks by Akhara Sultana, a six semester student.
