Report of the Programme:

Objectives:

- ⇒ To celebrate World Environment Day and make an initiative to plant trees.
- ⇒ To make an awareness to protect environment by saying no plastic for green environment.

Participants of the Programme:

All the assistant professors and the students of department of education were participated.

Description of the program:

A program was organised today by the department of Education to celebrate world environment day. At the very beginning of the program, the H.O.D of Education, Hiram-moyee Medhi delivered a short speech focusing on the Theme of World Environment Day, 2025. She briefly explained that the Republic of Korea is the host country to celebrate World Environment Day 2025 and the theme is focusing on ending a plastic pollution globally. Ridding the planet of plastic pollution is an important contribution to achieving the sustainable development goals, including those on climate action, sustainable production and consumption, protection of seas and oceans and repairing ecosystems and retaining biodiversity. She planted a sapling by the help of other professors and students. This program was ended by offering a vote of thanks by Dr. Fajlul Karim, Assistant Professor of this department.
